Efflorescence Cleaner - Technical Data Sheet

Description

Efflorescence Cleaner is an acid based solution specifically designed to break down Efflorescence stains (whitish salt) from paving stones and other substrates. Efflorescence cleaner is concentrated so that it may be diluted with water via spray hose attachments. For more stubborn stains please consult with a Seal King product specialist for stronger dilution application techniques.

Application Instructions

- Wear goggles and rubber gloves
- Wet surface with water
- Attach garden hose to attachment sprayer
- Push tab inwards
- Apply, scrub, and rinse
- Approximately 400 sq ft / 1L or 32oz

Available Sizes

1L (32oz)

Caution

- Do not breathe fumes or vapors.
- Use under well ventilated areas.
- Keep away from skin and eyes, if contact occurs with skin wash or flush immediately with water for at least 15 minutes.
- This product could damage surface if not diluted with water
- Allow 60 days after purchase of paving stones for efflorescence to rise to the surface before cleaning and sealing

Warranty

Our ISO 9001 audit procedures confirm strict quality control of our products in manufacture within approved tolerances. Our products are warranted to be free of defects in material or manufacture. If a product does not conform to this warranty, Seal King's sole obligation under this warranty shall be, at its option, to credit the Purchaser's account or to supply replacement material. All information and recommendations given in this document are accurate on the date of publication.

Please consult the Safety Data Sheet for more Hazard Information.
